ROCK PLANTS

and

IRIS

1933

CARL STARKER,
Jennings Lodge, Oregon

INTRODUCTION

In keeping with the times, our fourth catalogue takes the form of a modest price list. We regret that we cannot give descriptions, but these can be found in our 1932 catalogue, or in any adequate book on rock plants. We are sending our 1932 catalogue with this list to our new customers as long as the supply lasts, and are asking our old customers to refer to their copies for descriptions. We are always glad to furnish additional information about any plant to anyone who will write to us concerning it. We have added a number of new plants to our list this year, and would call your especial attention to our very complete list of Dwarf Bearded Irises and Rock Garden shrublets.

Later in the year we will issue a list of Tall Bearded Irises, and in the fall we will have a list of seeds collected from our gardens, which we will be glad to send to anyone who cares to write for them.

We are happy at any time to have visitors call at our gardens, where interesting plants may be found in flower during most of the year. Our gardens are situated on a paved road ten miles south of Portland, Oregon, on the Oregon City car line, two blocks east of the East Side Pacific Highway at Hull Avenue Station.

NON-WARRANTY IS A CONDITION OF ALL SALES MADE. On account of the great number of causes of failure over which we have no control, such as poor or improper soil, unfavorable weather, ignorant or careless culture, we can assume no responsibility after the stock is delivered.

ORDER EARLY. Early orders are suggested to prevent disappointment in case the variety should be sold out. Please write your name and address plainly.

STOCK. All orders will be filled with good strong stock that will be reasonably sure to bloom the first season.

TERMS. Cash should accompany all orders. No order will be accepted for less than \$1.00. Make checks payable to Carl Starker.

POSTAGE. We prepay postage on all orders over \$2.00 west of the Rocky Mts. All others please add 10% to help cover postage and packaging.

Rock Plants and Alpines

<i>Acaena Glauca</i>	.25
